**Thank you for selecting R.B.I. Baseball™ for the Nintendo Entertainment System®.**

### **OBJECT OF THE GAME/GAME DESCRIPTION**

You are both the manager and the team as you define your strategy and refine your skills in the most realistic baseball game available. Play against the computer opponent in a nine-game season or challenge a friend for nine innings and a best-of-seven series. You pick your team, line-up, pitchers and control all the pitches, throws, swings, steals, substitutions and fielding. Teams are actual line-ups used in big-league ball. Each player has individual skills and statistics that make him unique from every other player on the field. And R.B.I. Baseball is authorized by the Major League Baseball Players Association. Remember to play your best because the outcome of the game is printed on the front of the daily sports page.

It is recommended that you carefully read this instruction booklet to learn and master the operation of this game. By doing so you can have hours and hours of baseball action with your family and friends!

### **PRECAUTIONS**

1. This is a high precision game. It should not be stored in places that are very hot or cold. Never hit or drop it. Do not take it apart.
2. Avoid touching the connectors, do not get them wet or dirty. Doing so may damage the game.
3. Do not clean with benzene, paint thinner, alcohol or other such solvents.

If you have any problems or questions about playing this game or any of Tengen's games, please call a Tengen game counselor at 408/433-3999 Monday through Friday from 8:30AM - 6:00PM Pacific Time.

**Note:** In the interest of product improvement, specifications and design are subject to change without prior notice.

## I. INTRODUCTION

R.B.I. BASEBALL conforms to most of the rules of big league baseball. You will be required to have a basic understanding of these rules. Any rules you are not familiar with will become obvious through play.

An on-screen display shows all the balls, strikes, outs and score. Between innings, the by-inning score is shown. At the end of the game, the daily sports page announces the results of the game including the box score (game statistics) and win/loss record.

Use the on-screen batting statistics as the quickest way to reference the skill of a particular player. A high batting average (Avg) with lots of home runs (Hr) identifies an excellent batter. Use the more detailed player statistics when you have become more familiar with the game operation.

## II. NAMES OF CONTROLLER PARTS AND OPERATING INSTRUCTIONS

### Controller 1 -

for a one-player game against the computer

### Controller 2 -

for a competitive two-player game with a friend

### Controller 1 Controller 2

## III. AT BAT

### [Control Pad]

Batter position in batter's box

### [A Button]

Batter swings bat - Press and hold the button for a complete swing. To bunt, press and release the button quickly (this may take a little practice).

## [Control Pad]

### Base running control

## [B Button]

Base runner will advance to the next base. Point the control pad to next base and press the B button. This is useful for stealing bases, hit and run plays, and squeeze plays. When a fly ball is hit, runners must be held using the control; because base runners will automatically run. Once the fly ball is caught, runners may then choose to "tag the base" and advance.

## [A Button]

Base runner will return to his base. Point the control pad to the desired base and press the A button.

**Note :** Once a runner has advanced to the next base, he cannot be called back to return.

## IV. IN THE FIELD

### [Control Pad]

Pitching (Right-handed pitcher)

Pitching velocities:

- Slow
- Normal
- Fast

### [A Button]

Pitching action - Press button to throw pitch. Use with control pad to select type of pitch. Once the pitch leaves the pitchers hand, the speed cannot be changed; only direction.

The pitcher can move side to side before a pitch is thrown by using the control pad.

### Fielding the Ball

When the ball is hit into the field, the defense must pursue the ball with the nearest fielder.

### [Control Pad]

### [Control Pad]

Select which base to throw to.

### [A Button]

Press the A Button to throw the ball. The ball will be thrown to the base selected by the control pad.

**Note:** When no base is selected with the control pad, the ball will automatically be thrown to first base.

## V. HOW TO PLAY

### SELECT Button

Press this button to select the desired playing mode:

**1-player game:** Play against the computer

**2-player game:** Competitive play

**Watch:** Watch selected teams play as if on TV.

### START Button

After selecting your desired playing mode, press this button to start the game. The start button can also be pressed during play for TIME (time-out). Press the button again to continue your game.

## SELECTING TEAMS

Select from these big-league teams:

Ca	California	NY	New York
Bo	Boston	SL	St. Louis
Dt	Detroit	SF	San Francisco
Mn	Minnesota	Am	American
Ho	Houston	Na	National

## HOW TO CHOOSE A TEAM

### [Control Pad]

Move the cursor to the team of your choice

### [A Button]

Press the A Button to select your team.

## SELECTING A STARTING PITCHER "SP"

Each team has a pitching staff of two starting pitchers "SP" and two relief pitchers "RP". If you use a starter in a game, he cannot be used in the next game of a nine-game season or a best-of-seven series. A starting pitcher needs one game of rest between appearances.

### [Control Pad]

### [A Button]

Press the A Button to select your pitcher.

## ONE-PLAYER GAME

(use controller 1)

In this mode, you can play against the computer opponent for a nine-inning game or, if you choose, a complete nine-game season. At the completion of a game you will automatically advance to the next game and team.

**Note:** When playing a nine-game season, beware of using both of your starting pitchers "SP" in any one game because they need a one game rest between appearances. Relief pitchers "RP" can play in successive games because they pitch only a few innings per game.

## ONE-PLAYER START

- Use the select button to choose the one-player game
- Push the start button
- Using the control pad, move the (D) to the team of your choice and push the A button.
- Now move the (C) to the team you wish to play against. In the nine-game season, your next opponent will be the team to the right.
- In a one-player game you are the visiting team and will have first at bat.

## NINE-GAME SEASON

This is the ultimate test against the computer opponent. You will play each of the nine opponents listed in the Tengen League. Pick your team and your first rival (opponent). Your next rival will always be the next team to the right. At the conclusion of each game, the daily sports page displays the box score and your win/loss record for the season. You can continue playing and challenging new teams even if you lose game(s) in the process. The season is over after all nine teams have been challenged.

## TWO-PLAYER GAME

(use both controllers)

In this mode, you can compete against a friend in a nine-inning game or continue to a best-of-seven series.

**Note:** When playing a best-of-seven series, beware of using both of your starting pitchers "SP" in any one game because they need a one game rest between appearances. Relief pitchers "RP" can play in successive games because they pitch only a few innings per game.

## TWO-PLAYER START

- Use the select button to choose the two-player game
- Push the start button
- Using the control pads, player one (I) and player two (II) select the team of their choice and push the A button.
- In a best-of-seven series you will play the same team.
- Player one is the visiting team and will have first at bat.

## BEST-OF-SEVEN SERIES

This the ultimate challenge in a two-player game. Players will test the skill and strategy of their opponent in a best-of-seven series. Starting pitchers "SP" are not capable of back-to-back appearances and need one game of rest in between. Relief pitchers "RP" however, are able to play in consecutive games because they have limited work per game. The daily sports page announces the outcome of each game and the win/loss record of the home team. The season ends when one team has four victories and the best-of-seven winner is decided.

## VI. ADVANCED PLAY

After you master the basic "At Bat" and "In the Field" control operations, you can learn "Advanced Skills"; for advanced players only. These features add depth, action and realism to the basic game. Practice these skills with your family and friends to prepare yourself for the big game!

### AT BAT

#### **Base stealing**

You may want to try and "steal" a base to advance a base runner. However when you attempt a steal, you must beware of being "picked off" by the pitcher. It is best to try a steal when the pitcher is in his wind-up. It is not advised that you try stealing with a slow base runner. Refer to the R.B.I. BASEBALL Player Program for speed ratings "SP" of each player. They are rated on an A-E system, with C being average.

### [Control Pad]

### [B Button]

Sends the base runner in a steal attempt. First, point the control pad to the base you wish to steal (not the base you are currently at). Then push the B button and the runner will go.

**Note:** Refer to the Player Program to check a base runners speed "SP". Use this information to decide if you should try to steal. A fast runner can make it look very easy. A slow runner must get a "good jump" on his opponents or count on an error by the defense.

### [A Button]

Calls the base runner back. This is important when you know it will not be a successful steal. First, point the control pad to the base you wish to return to, then push the A button.

**Note:** A runner can only be called back if he has not completely advanced to the next base.

## Pinch-Hitters

You may want to make a substitution in the batting line-up. With men on base or a late inning comeback attempt, you may decide to use a pinch-hitter. Substitute batters can be inserted in the lineup at any position. They will remain in your lineup if inserted in the first (1) through eighth (8) position. A pinch-hitter inserted in the pitcher's (ninth, 9) spot, will remain at that spot as long as the team remains at bat. However, after that half-inning/at bat is over, a substitute pitcher must be chosen to bat in the ninth position.

### [Control Pad]

Push the start button for TIME. Press the A button to display the roster of pinch hitters. Use the control pad to locate the batter of your choice. Push the A button to then select the batter and insert him into your line-up.

**Note:** Once a batter has been removed from the line-up, he cannot re-enter the game. Review the player statistics to select the right pinch-hitter for the right situation.

## IN THE FIELD

### Advanced Pitching Information

Each pitcher is unique in his abilities:

- Ability to curve the ball - Refer to the Player Program to identify a pitcher's ability to curve the ball left and right. Each are rated on an A-E scale.
- Pitching speeds - All pitchers will have the ability to throw at various speeds. Some will have a better fastball and some a better slow ball (knuckleball and sinkerball). Refer to the Player Program for details. They are rated on a miles per hour (mph) scale.
- Skill with a Knuckleball and sinkerball - The knuckleball will "wobble" in flight and a sinkerball will drop low in front of the plate. Each pitcher has differing abilities to throw these pitches. Play them all to find your favorites!
- Stamina - Each pitcher differs in his stamina or endurance level. When he reaches his limit, his pitches will lose speed and curve. Eventually he will become so ineffective that batters will be able to hit the ball very easily. The two starting pitchers "SP" have about three times the stamina of the two relief pitchers "RP". Throwing knuckleballs and fastballs will tire the pitcher faster than a "normal" speed pitch.

## Executing a "Pick-Off" Move

### [Control Pad]

The complete move is a two-step process.

### [B Button]

Pitcher will stop and hold the ball

### [A Button]

Pitcher will throw the ball to the base selected by the control pad. If no base is selected with the control pad, the ball will automatically be thrown to first base.

**Note:** Sometimes you may want to stop and hold the ball without throwing to a base. You may be able to catch an over anxious base runner trying to steal.

## Relief Pitchers

Push the start button for time. Press the A button to display the roster of relief pitchers to select from. Move the control pad to locate the relief pitcher of your choice. Push the A button to insert the relief pitcher into your line-up.

### [Control Pad]

**Note:** Once a pitcher has been removed (relieved) from a game, he is through; and cannot play again in that same game. Use the player statistics to help in the selection of a pitcher. Some will have better top speed and/or curve balls.

## RUNNING WITH THE BALL

You can command a fielder with the ball to run to a base. A fielder can also field the ball, then run to a base. And, a fielder may field the ball, run with it; then throw to a base. These are all important skills for making great defensive plays!

### [Control Pad]

### [B Button]

Press the B Button to run with the ball. The fielder will run in the direction of the base selected by the control pad.

### [A Button]

Press the A Button to throw the ball. The fielder will throw the ball to the base selected by the control pad.

## ERRORS

Fielding by each team is equal, except for the number of errors. Occasionally a fielder will "bobbie" the ball or make a poor throw. Some teams are likely to make a few more errors than others. Players should avoid throwing the ball to a base when a fielder has left his position.

# OFFICIAL R.B.I. BASEBALL PLAYER PROGRAM

Includes rosters and line-ups for all 10 teams

(For use with R.B.I. BASEBALL only)

Use this program just as a team manager would to get the "inside story" on your competition. Study the line-up and player statistics of your opponent before a game. This will provide you with important information regarding the strengths and weaknesses of each team. R.B.I. BASEBALL is just like real baseball because skill characteristics and statistics are based on actual player performance.

**Note:** You may have noted that this game is already very complete in its realism. Therefore, not every game player will choose to use this program (it is not necessary for complete enjoyment of the game). Serious game players and sports enthusiasts, however, will appreciate the depth and realism this program adds to game play.

Statistics are "based" on actual player performance during the 1986 and 1987 seasons. They are only for use in R.B.I. BASEBALL, and Tengen, Inc. does not assume any responsibility for the accuracy of these statistics.

## HOW TO USE THIS PROGRAM:

**Tips from the dugout:** Batters with high "CT" (Contact) ratings have a greater probability of making better contact with the ball. Look for a lot of balls to be put in play (hit & run opportunities). Batters with high "SP" (Speed) ratings will run the basepaths faster than those with low ratings. The speedsters will, for example, stretch singles into doubles, doubles into triples plus steal a lot of bases. As a team manager, use these ratings strategically to your advantage.

### BOSTON (Bo)

#### BATTERS

Player Abbr.	Pos	L/R	Bat Avg.	HR	Batting Ratings		Full Name
					CT*	SP*	
Barret	2B	R	.286	4	C	B	Marty Barrett
Buckner	1B	L	.292	18	C	E	Bill Buckner
Boggs	3B	L	.357	8	A	C	Wade Boggs
CT* (Contact) Ability to make good contact with the ball. Range A-E							
SP* (Speed) Base running speed. Range A-E							

**Tips from the dugout:** A pitcher's stamina determines the short/long term effectiveness of a given pitcher. Note that to the right of the pitcher's abbreviated name in the program is either an "SP" (starting pitcher) or "RP" (relief pitcher). A starting pitcher has the ability to throw a greater number of pitches with more velocity and accuracy than a relief pitcher. It is important that game players make efficient and strategic use of their pitchers to maximize their output and value. Overworking a pitcher will result in a loss of control and the team at bat can easily hit the ball. When playing a best-of-seven series or a nine-game season, beware of using both starting pitchers "SP" in the same game as it is necessary to have one game of rest between starts. Relief pitchers "RP", however, are able to pitch in every game; though their stamina per game is far less. As you can see, R.B.I. BASEBALL is the most complete baseball game you can play, so enjoy... and batter up!

## **COMPLIANCE WITH FCC REGULATIONS**

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna.
- Relocate the NES with respect to the receiver.
- Move the NES away from the receiver.
- Plug the NES into a different outlet so that computer and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

### **How to Identify and Resolve Radio-TV Interference Problems**

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

## TENGEN 90-DAY LIMITED WARRANTY

TENGEN warrants to the original purchaser of this software product that the medium on which this computer program is recorded is free from defects in material and workmanship for a period of ninety (90) days from date of purchase. TENGEn agrees to either repair or replace at its option, free of charge, any TENGEn software product. Before any returns are accepted you must call our warranty department (408/435-2650) for a return authorization number. You may then return the product postage paid, together with the return authorization number, sales slip or similar proof of purchase.

THIS WARRANTY IS NOT APPLICABLE TO NORMAL WEAR AND TEAR. THIS WARRANTY SHALL NOT BE APPLICABLE IF A DEFECT ARISES OUT OF ABUSE, UNREASONABLE USE, MISTREATMENT OR NEGLIGENCE OF THE SOFTWARE PRODUCT. THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, WHETHER ORAL OR WRITTEN, EXPRESS OR IMPLIED. ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE ARE HEREBY EXCLUDED. THIS WARRANTY IS LIMITED TO THE 90 DAY PERIOD DESCRIBED ABOVE AND IN NO EVENT SHALL TENGENT BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES RELATING TO THE SOFTWARE PRODUCT.

The provisions of this warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitations and exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
